

# Summary of Severe Weather

## September 5, 2014

Severe thunderstorms moved quickly across Southern Lower Michigan on the evening of September 5<sup>th</sup>, causing significant tree damage and power outages.

The town of Eaton Rapids, in particular, was hit by a severe core of straight-line winds. There were many, many reports of tree damage and thousands of people without power from Van Buren and Allegan counties eastward through Barry, Kalamazoo, Calhoun, Eaton, Ingham, and Jackson counties.
